Thank you for your enquiry about these reviews, held for between 4 and 10 people. We will cover Basic and/ or Therapy 1 level practical elements – bringing you back to the original technique by tweaking individual hand positions and reminding you of the sequences perhaps not use that often in your professional practise. Problem cases may be discussed, a little theory covered and, when available, new research information shared. I will also want to feel your hands with some or all of; short-neck, pumps and scoops. If you want to lie on something personal you need to bring couch roll or towels and definitely items suitable for covering yourself, pens & paper and, if you wear contact lenses or a dental plate or bridge, solution and container. Wear comfortable clothing.

Each day runs from 9am – 5pm with about 1 hour for lunch and short morning & afternoon breaks. I provide drinks and snacks. For lunch you can pop into town (400 meters).

The venue offers 7 ensuite bedrooms (check the availability of breakfast when booking), free on-site parking and Wi-Fi. Rooms are not reserved for us so if interested contact the Centre directly. Previous students have stayed here and been happy with the convenience of the accommodation.

For alternative accommodation you may like to contact the local Tourism Association:
